

You won't find many street signs on Puerto Rico. For that reason the directions below are based on landmarks and street numbers. Please print out the driving directions, do not trust the GPS, they do not work precisely in our area. For the Bio Bay "Laguna Grande" adventure the GPS coordinates are 18°21.769N, 65°37.528 W. (Just in case as a backup).

Driving Instructions: Palmas del Mar to Seven Seas, Fajardo

Take highway #53 North in the direction of Fajardo. Passing the third toll, continue driving 4.5 miles, until you reach the traffic light and turn right onto street #194. Proceed on this street for approximately 10 - 12 minutes. You will pass a few Marinas on your right, then you will pass the entrance of El Conquistador Resort to your right. At this point, the street becomes street #987. Continuing straight, you will see "El Faro" Restaurant and a baseball field to your left, keep left and proceed until you see the beach to your left and then the "Malecon" area (with the beach parallel to you). At this point you will see all of our equipment and guides in teal blue shirts waiting for you.

Bio Bay Launch site

[Same as above but keep going past the beach]

Continue on the same street, without making any turns, for about 5 minutes more and you will reach Las Croabas Passive Park (Parque La Juventud), you will see the ocean on the left and some sail boats, and to the right many Restaurants. Now is time to start looking for a parking space, once you find parking, put everything in the trunk of the car, and start looking for Pure Adventure staff. Our guides will be wearing teal blue shirts. Our base of operations will be located on the left of the park close to the boat ramp. Look for us in kaki shirts, signs and a flag with the Pure Adventure Logo. We'll be waiting for you!

Prepare for a Pure Adventure!!!

Note: Click, hold and drag to move around the map. If you need another route, drag the destination marker "A" to your current location. To zoom in and out you have 3 options: double click, the scroll button on your mouse or the navigation buttons on the top left corner of the map.
